Sample syllabus for the OwlCast demo. Fictional course and instructor.

MIS 1050: Information Systems Foundations

Spring 2027 · Mondays and Wednesdays, 2:00–3:20 pm
Instructor: Dr. J. Okafor · Office hours: Mondays 11:00 am–1:00 pm

Course description

How organizations use information systems to make decisions. You will model a business process, design a small database, and build a dashboard with a team. No programming experience is required.

How your grade is calculated

Homework: 10 assignments = 20% of your grade (2% each).

Group Project Proposal: 10%.

Group Project Milestone (working prototype): 20%.

Final Project Presentation and Report: 35%.

Participation (in-class labs and discussion): 15%.

Policies

Homework is due Fridays at 11:59 pm unless noted. Group work is graded as a team, with a peer evaluation that can adjust individual grades. Please talk to me early if something outside class is making it hard to keep up.

Weekly schedule

Week	Topic	Due
Week 1	Introduction; what is an information system?	
Week 2	Business processes (no class Monday, MLK Day)	Homework 1 due Friday
