Sample syllabus for the OwlCast demo. Fictional course and instructor.

STAT 1001: Introduction to Statistics

Spring 2027 · Section 003 · Tuesdays and Thursdays, 9:30–10:50 am
Instructor: Prof. A. Rivera · Office hours: Wednesdays 1:00–3:00 pm and by appointment

Course description

An introduction to describing data and reasoning under uncertainty. Topics include summaries and graphs, probability, sampling distributions, confidence intervals, hypothesis tests, and simple regression. We use real public datasets and free software throughout.

Grading

Component	Weight
Problem sets (8, equally weighted)	20%
Midterm Exam	25%
Final Exam (cumulative)	35%
Participation and in-class activities	20%

Policies

Problem sets are due on Canvas by 11:59 pm on the date listed. Late work loses 10% per day for up to three days. Each student may request one 48-hour extension per semester, no questions asked. Exams are closed book; one handwritten page of notes is allowed. If you have an accommodation through Disability Resources and Services, please share your letter during the first two weeks.

Schedule

Week	Date	Topic	Due
1	Tue, Jan 12	Why statistics? Types of data	
2	Tue, Jan 19	Graphs and distributions	
3	Thu, Jan 28	Center and spread	Problem Set 1
4	Thu, Feb 4	Normal distributions	Problem Set 2
5	Thu, Feb 11	Correlation	Problem Set 3
6	Thu, Feb 18	Probability basics	Problem Set 4
7	Thu, Feb 25	Midterm review (Tue)	Midterm Exam (in class)
8	Mar 1–7	Spring Break: no class	
9	Thu, Mar 11	Sampling distributions	Problem Set 5
10	Thu, Mar 18	Confidence intervals	Problem Set 6
11	Thu, Mar 25	Hypothesis tests	Problem Set 7
12	Tue, Mar 30	Comparing two groups	

13	Thu, Apr 8	Chi-square tests	Problem Set 8
14	Tue, Apr 13	Simple regression	
15	Tue, Apr 20	Review	
Finals	TBA	Final Exam	Date and time per the university final exam schedule
